

Medical statement for an introduction dive

The minimum age for an Introductory dive is 8 years old.

Dear client,

Before participating in your diving experience please fill out the medical form below (for minors a guardians signature is required). Should you need any advice please contact us.

IF YOU SUFFER FROM ANY OF THE CONDITIONS BELOW YOU MAY NOT BE ABLE TO PARTICIPATE IN DIVING:

Respiratory problems, sinus problems, asthma, heart problems, high/low blood pressure, ear infections, epilepsy, diabetes, recent operation or illness, claustrophobia, pregnancy, use of drugs or medication, or any other limitations.

I declare that I do not use alcohol regularly.

I am aware that flying should be avoided for at least two hours after the dive.

I understand and it has been explained to me that there is no refund if I do not complete the dive or change my mind.
